

Scoping Workshop on a Community Hydrologic Modeling Platform (CHyMP)

Sponsored by the National Science Foundation

*March 26-27, 2008
National Academy of Sciences
Washington, DC*

Scoping Workshop on a Community Hydrologic Modeling Platform (CHyMP)

Welcome

- Thanks to the NSF, to the NAS, and to you

Goals

- Discuss and articulate the rationale for a CHyMP
- Report on our findings to the community and to the NSF
- Plan a strategy for moving forward
- Establish a CHyMP working group

Charge

- Share your thoughts, pro and con, openly
- Think about and discuss whether the lack of community modeling tools is a major impediment to advancing to our science
- Needs and requirements, scope and form, potential applications
