

CUAHSI Reception at 2007 Fall AGU – Mark Your Calendars

CUAHSI will hold its annual informational reception during Fall AGU week in San Francisco. Please plan to attend this important event!

- **When:** Tuesday, December 11 from 6:00pm to 9:00pm
- **Where:** Moscone Center, South – Room 300
- **Open to anyone who wants to attend**
- **Libations & Hors d'œuvres will be served**

In addition to brief presentations highlighting what CUAHSI has accomplished during the past year and in what directions CUAHSI envisions its future path taking, we will formally announce the six Early Career Fellowships awardees. CUAHSI is very proud to have these individuals as members of this inaugural group of fellows and we hope this opportunity will play an important role in their professional development. Please join us at the reception as we applaud their achievement.

We encourage you to pass this notice on to your colleagues. The CUAHSI reception is always a good place and time to renew old acquaintances, to make some new ones, and to just generally unwind after a full day's worth of events at Fall AGU.

We hope to see you at the reception in Room 300 at the Moscone Center South on Tuesday, December 11.
