

Consortium of Universities for the Advancement of Hydrologic Science

Northeast Regional Meeting - May 1, 2008

Purpose and Objectives

The purpose of this meeting is to provide a forum to exchange information between CUAHSI leaders and its members. The meeting will:

- Allow CUAHSI leaders to explain its activities, accomplishments, visions, and opportunities. What is CUAHSI doing?
- Provide a forum for CUAHSI members to provide input to CUAHSI leaders. What should CUAHSI be doing and what can CUAHSI do for us?
- Provide a forum for regional water scientists to present their potential contributions to community data collection initiatives. What other related water resources/hydrologic science activities are we doing?
- Facilitate strategic planning discussions for related water resources/hydrologic science collaborative initiatives in the Northeastern US. How can we align regional and national initiatives?

Plan to Attend

Thursday, May 1 in Durham, New Hampshire hosted by Charles Vörösmarty and Jennifer Jacobs (University of New Hampshire).

Hotel Reservation Advisory

You are responsible for securing your own hotel accommodations. A block of rooms has been reserved with the New England Center, located at 15 Strafford Avenue, Durham, NH (phone: 603.862.2801).
