2. **Chair Update**
   a. Loheide reported that the review of the Executive Director and setting of salary was communicated to the NSF, per usual protocols. The NSF response was generally that this was internal to CUAHSI and was not necessary. Loheide indicated that the plan moving forward would be to include the NSF in future years, and CUAHSI has often done.

3. **Update on new Director nominations.**
   a. Loheide, AghaKouchak, and C. Welty are the nomination committee for the Board of Directors elections. They are actively recruiting candidates, and will issue an open call to the members in the coming weeks. Loheide requested any suggestions be forwarded his way for recruitment.

4. **Update on Biennial Planning**
   a. Miller reported that the committee is working to finalize keynote speakers based on the list that was previously discussed. The group is working to finalize sessions and chairs in the coming weeks.

5. **Membership meeting planning (December 2 at 14:00 EST)**
   a. Bales reviewed a draft agenda for the Membership Meeting, modified from what has been done during past years. He noted that there is capacity for additional student speakers this year representing results of CUAHSI programs to raise their visibility to the members.
   b. The group discussed the preliminary polling questions that were circulated. Miller suggested polling on plans for attendance at the Town Hall and/or soliciting town-hall topics from the community that could be added to existing plans.
   c. Bales requested input on possible student speakers be emailed to him.

6. **AGU CUAHSI Town Hall planning (date and time unknown).**
   a. Bales reviewed a draft agenda for the Town Hall meeting. Loheide initiated a discussion focused on the outcomes that CUAHSI is seeking from the event. Bales stated a primary goal of advertising CUAHSI services to the community, and engaging the community with the new NSF program director.
   b. Loheide asked how this would be differentiated from the reception.
   c. Gooseff suggested that student outreach is critical to getting early career hydrologists “into the fold”. He endorsed an emphasis on the capabilities of CUAHSI services that will help new participants see what is possible.
   d. Gooseff suggested that Lautz might be interested in a panel discussion about the role of CUAHSI from the NSF perspective, and opportunities for PIs to maximize “return on investment”.
   e. Valocchi suggested highlighting the growth areas identified in the new cooperative agreement.

7. Loheide opened the floor for any other business. Hearing none, the meeting was adjourned.
