

Mission – To empower the water community and advance science through collaboration, infrastructure, and education.

Vision – A thriving water community – enabled by shared resources – developing an integrated understanding of water, earth, ecosystems, and society to meet human and environmental needs.

COMMUNITY RESOURCES

CUAHSI facilitates the interdisciplinary advancement of water science by making it easier for the water science community to do their work. CUAHSI's community consists of students, educators, volunteer scientists, outreach coordinators, environmental and watershed organizations, and corporate entities. All who are involved in water science, water-resources management, or water-resources protection and enhancement are part of the CUAHSI community.
